EDUCATION

COLLEGE EDUCATION	-- Sri Eshwar College of Engineering	7.65(4 th sem)	2024-2028
SCHOOLING	-- PKD Matric Hr.Sec.School	79%	2022-2024
SCHOOLING	-- PKD Matric Hr.Sec.School	76.4 %	2021-2022

PROJECTS:

AgroPulse AI - Intelligent Agricultural Decision Support System:	GitHub	2026
--	------------------------	------

Tech Stack: React.js, Node.js, Express.js, MongoDB, Python, Scikit-learn, REST APIs.

Developed a full-stack AI-powered smart agriculture platform that integrates the MERN stack with Machine Learning to predict agricultural commodity prices using historical mandi datasets. The system provides intelligent farmer assistance through AI-powered voice interaction, personalized mandi recommendations, weather forecasting, and government scheme information. Designed and deployed commodity-specific ML models using Python and Scikit-learn, integrated with REST APIs for real-time price prediction. Implemented multilingual support, secure authentication, and a responsive glassmorphism interface to deliver a scalable and production-ready solution for precision agriculture.

LIVE SERVER LINK: <https://agro-pulse-ai-bice.vercel.app>

Global Pathway University ERP:	GitHub	2026
--------------------------------	------------------------	------

Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, Tailwind CSS.

Built a full-stack ERP platform with role-based authentication and authorization for Students, Faculty, and Admins. Developed modules for attendance tracking, results management, fee monitoring, announcements, and profile management. Implemented JWT security, PDF report generation, QR-code-based student identification, and RESTful APIs. Deployed frontend on Vercel and backend on Render with MongoDB Atlas integration.

DieCast Hub:	GitHub	2025
--------------	------------------------	------

Tech Stack: MERN Stack (MongoDB, Express.js, React.js, Node.js), HTML, CSS, JavaScript.

Developed a full-stack web application for managing diecast model collections. Implemented features for adding, updating and viewing models with data stored in MongoDB. Built REST APIs using Node.js and Express.js and created an interactive frontend using React for efficient inventory and collection tracking.

CakeBoss:	GitHub	2024
-----------	------------------------	------

Technologies :HTML,CSS,JavaScript:

Developed a responsive bakery website with product gallery and menu display. Implemented a JavaScript-based shopping cart with dynamic price calculation and added a contact form with basic validation to improve user interaction.

CODING PROFILES:

Leetcode- Global Rank :1717151	Problems Solved : 110	Profile Link: LINK
Skil rack - Rank : 21487	Problems Solved : 1038	Profile Link : LINK

CERTIFICATIONS:

Mastering Data Structure and Algorithms using C and C++	Udemy	2025
Python Fundamentals	Infosys Springboard	2025
Introduction to HTML CSS JS	Sololearn	2024
C++ Programming	IIT Bombay	2024
C Programming	IIT Bombay	2024
Design Thinking - A Primer	NPTEL	2026

TECHNICAL SKILLS:

Languages	C C++ Java Javascript
Technologies/Frameworks	Spring-Boot MERN
Database	SQL Mongoddb MySQL
Tools	Git GitHub Postman VS code Canva
Core Concepts	DSA OOPS DBMS CN
Web Technologies	HTML CSS
