EDUCATION

B.Tech(AIDS)	Sri Eshwar College of Engineering	**CGPA: 8.49(upto 3rd Sem)**	**2024-2028**
HSC	Carmel Matric Hr. Sec. School	**91.6%**	**2022-2024**
SSLC	Carmel Matric Hr. Sec. School	**96.6%**	**2021-2022**

INTERNSHIP

MERN Stack Development Intern

Completed a MERN Stack Development Internship at Infoziant, gaining practical experience in full-stack web development. Developed RentWise Asset Manager using MongoDB, Express.js, React.js, and Node.js, implementing asset tracking, CRUD operations, and RESTful APIs. Built responsive user interfaces and integrated database management features

PROJECTS

Policy Simulation Platform — Live Link — May 2026

Engineered a MERN stack web application using React Three Fiber and Three.js, delivering 6 category-specific 3D simulations. **RESTful** APIs using Node.js and Express.js with JWT authentication across 5 endpoints for seamless CRUD operations; populated MongoDB Atlas with **50 government policies** spanning **6 domains**, computing weighted impact scores that generate **GDP projections** and employment forecasts per simulation.

RentWise – Asset Manager — Live Link — Mar 2026

Built a full-stack **MERN application** built using React.js, Node.js, Express.js, and MongoDB Atlas, featuring JWT-based multi-role authentication for Owners, Managers, and Tenants. It includes **RESTful APIs** to manage **50+ assets** across **6 categories** with rental request and approval workflows, along with a simulated payment gateway supporting UPI, Card, Net Banking, and Cash with automated receipt generation.

Car Price Prediction — Github — Nov 2025

Designed a machine-learning powered pricing system using Python, Flask, and regression models to predict used-car prices with high reliability. Built clean data pipelines, automated preprocessing, and engineered features that improved model accuracy by up to **92%** and optimized inference time by **35%** for real-time predictions.

ACHIEVEMENTS

HackerRank Quiz Challenge : Top 45 & Finalist — **Mar 2026**
Achieved **Top 45 ranking** among **2,000+ participants** in the HackerRank Quiz Challenge.

Runner in CodeLee (1st and 2nd Sem) — **Dec 2024**
Secured runner-up position in a competitive programming contest hosted by Skillrack, demonstrating strong problem-solving and algorithmic skills

CERTIFICATIONS

SQL(Basic)	HackerRank	**Nov 2025**
Introduction to Gen AI	IBM SkillsBuild	**May 2025**
Mastering Data Structures and Algorithm using C & C++	Udemy	**May 2025**
Python Programming Mastery	Udemy	**Dec 2024**
C programming	IIT Bombay	**Dec 2024**
C++ programming	IIT Bombay	**Dec 2024**

CODING PROFILES

LeetCode - Solved **300+** problems | Contest Rating: **1595** | Global rank : **209,890** | Vijaysri
HackerRank - **4 star** in C | Vijaysri
CodeChef - Solved 3**50+** problems | Got **Silver Badge** | Vijaysri
SkillRack - Solved **1400+** problems | Rank : **10037** | Received **405+** Bronzes | **15** certificates | Vijaysri

TECHNICAL SKILLS

Programming	C | C++ | Python | Java | JavaScript
Core Concepts	DSA | OOP | Data Science
Web Technologies	HTML | CSS | JavaScript | Flask | SpringBoot
Data Science & Analysis Libraries	Pandas | NumPy | TensorFlow | Matplotlib
Tools	VSCode | Canva | Excel | PowerPoint | Jupyter Notebook | GitHub
